Daniela Gattel-Levia My biggest takeaway from the Challenge is seeing how a planned strategy can lead to amazing outcomes. I loved the way you made tasks simple and easy. And the idea of a free challenge to enroll is awesome. As human beings we are attracted by challenges (that are just easy 😂) and therefore the approach is surely successful. Thank you for over delivering value and care for us. I feel with your help and expertise I can grow my tribe and business the way I envisioned.
