

HOW TO CREATE A HYPERLINK WITH HTML

This is the code we received from our developer to add a hyperlink to our Facebook group. If you want to add a hyperlink, swap out the highlighted text with your URL and what you want the hyperlink to say.

```
<!DOCTYPE html>
<html>
<head>
<style>
a:active {
  color: #15b9d5;
  background-color: transparent;
  text-decoration: underline;
}
</style>
</head>
<body>
<p><span style="font-size:18pt;"><u><a href="https://www.facebook.com/groups/thehealthcoachesclub/">
Join Our Facebook Group</u></a></span></p>
</body>
</html>
```
